CAREER OBJECTIVE

My career objective is to grow as a humble and proficient professional in the programming field. I aim to continuously learn and adapt to emerging technologies, fostering a mindset of humility and eagerness to contribute meaningfully to projects. My goal is to build a solid foundation in programming and stay open to new opportunities that allow me to contribute positively to the dynamic world of technology.

EDUCATION

Bachelor of Science in Information Technology

UNIVERSITY OF SCIENCE AND TECHNOLOGY OF SOUTHERN PHILIPPINES

2020 - Present (4th Year)

COURSES

- Information Management
- Web Systems and Technologies
- Mobile Programming
- Integrative Programming and Technologies

SKILLS

PERSONAL

- Time management
- Hardworking
- Innovative
- Problem solving
- Resourcefulness
- Dependability

TECHNICAL

- Django
- ReactJS
- React Expo
- JavaScript
- Dbeaver
- Postman
- Figma
- Python

PERSONAL

Date of Birth: October 16, 2001
Place of Birth: Zone 2B Cugman, Cagayan de Oro City
Citizenship: Filipino
Gender: Male

CERTIFICATIONS

Certificate of Completion: CCNAv7: Switching, Routing, and Wireless Essentials (February 28, 2023)
Programming for Beginners Using Python (June 25, 2022)
DICT-WD002 Using HTML and CSS to Design a Website (June 24, 2022)

ACADEMIC ACHIEVEMENTS

Dean's List:	2022 - 2023 1st Sem	1.625 GPA
	2021 - 2022 2nd Sem	1.417 GPA
	2021 - 2022 1st Sem	1.667 GPA

PROJECT

eTCMF

A Web and Mobile App Application for electronic ticketing system

The application incorporates OCR technology to extract information from documents, including driver's licenses and OR/CR. My primary role centers around backend development, leveraging a technology stack that includes ReactJS, Django, and React Expo.

- Responsible for establishing and managing the API connections between the web, mobile and the server.
- Develop and implement server-side logic for web applications.
- Collaborate with frontend developers, designers, and clients.
- Use version control systems (e.g., Git) for code management.
- Integrate third-party services, libraries, and APIs.
